Dear «DLR» :

Enclosed is the **updated Reporting Table for 2001** containing week numbers for reporting through the National Marine Fisheries Service (NMFS) Interactive Voice Response (IVR) System. Reporting instructions for submitting a weekly report through the IVR system have not changed, therefore, they are not included in this letter. This updated reporting table is being sent to dealers that have a permit that requires submission of weekly summaries for quota-monitored species.

Any purchases made from December 31, 2000 – January 6, 2001 are to be reported as reporting week 53. This week will not have two reporting week numbers to reflect the change in calendar years. Any purchases reported as week 53, that should be applied to calendar year 2001, will be updated in the Species Quota Monitoring Database to reflect the first partial week of 2001. Purchases made from January 7, 2001 – January 13, 2001 are to be reported as reporting week 2.

As a reminder, the species that must be reported weekly are Atlantic bluefish, summer flounder, black sea bass, scup, spiny dogfish, *Loligo* squid and *Illex* squid. If no purchases of quota-monitored species are made during a week, a report so stating must be submitted through the IVR system. Dealers are also required to report purchases of all species on a trip-by-trip basis to their local NMFS Port Office.

For any questions regarding your Federal dealer permits, call (978) 281-9370. For any other questions regarding reporting, contact your local Port Agent (list attached) or you may contact us at: reporting.ne@noaa.gov. Information contained in this packet can also be found on the World Wide Web at <http://www.nero.nmfs.gov/ro/doc/nero.html>.

Sincerely,

Gregory R. Power, Chief
